

Sept 15-44

Dear Sis & Family:

Just got back from check
pilots school - so guess I'm
the big noise around here
now - but still a 2nd Lt - had
a swell surprise waiting for me
on my return - about 5 letters from
you also some from Jean & Mother
and all sounds well -

Got the snap shots you sent
from your vacation, you all
looking swell - its the first
picture of Doc I have -

Your letter said so much
I can't remember all of it - but
about you and your poison in -
hard luck - but I believe the
last one said you were getting
over it - I hope you haven't

sent any Xmas packages or
any packages at all over after
I told you we could get all
the things we need now - and
mainly the fact that if I keep
going its possible I'll be finished
my flying time in 3 months and
should be over 4 and it takes
4 months for some packages to
get here - hope you understand -
also in doing so Im going to
be busy as hell as I have
been the last two months so
please forgive me if I can't
write as much as I'd like. But
I think I best get home now
I've been over here too long
already - so wish me luck

Over o.k.

Love & Luck
"Bob"
